

Responsive & Mobile Websites Level 01 Course

Project 01 – Responsive Web Page

Course Value: 85%

Due: End of day Friday, March 17 , 2017

Instructions:

- 1) Create a single page responsive web page on any topic of your choosing
 - a. Your web page should be usable at the following sizes at a minimum:
 - i. Smartphone – portrait (320px wide)
 - ii. Smartphone – landscape (480px wide)
 - iii. Tablet – portrait (768px wide)
 - iv. Tablet – landscape(1024px wide)
 - v. Desktop – widths wider than 1024px
 - b. Ideally try making your web page fully flexible and responsive so that it is adaptable to any current or future devices
 - c. Even though this project requires only a single web page to be created, your web page must include a responsive main navigation with at least three links. The links to the other pages do not have to function.
- 2) Upload your web page to your portfolio server and place a link on your landing page

Marking Criteria:

- | | |
|--|-----------------|
